## LETTER OF RECOMMENDATION

Dear Sir/Madam

The City of Hannover is currently working with its sister city of Blantyre City Council in a European Union funded project called Aware & Fair.

The project is aimed at the support of the Millennium Development Goals by promotion of Fair Trade relationships between producers in Malawi and consumers in the partner cities Hannover, Miskolc, Poznan, Litomerice, Blantyre, and beyond. We hope, that Blantyre City will be a member of the international campaign "FairTade Town".

We understand that CISP are proposing to work in partnership with Blantyre City Council in a project which would support amongst others women entrepreneurs.

Blantyre has been awarded "Millennium City" and we believe that the proposed action will help to implement the city's strategy ?

We wholly support the implementation of this project as it would assist the women of Blantyre in reducing poverty levels in their families.

We would therefore not hesitate to recommend the application by CISP and would appreciate your favourable consideration to the application.

Yours faithfully

Silvia Hesse  
Head of Agenda21-office  
Projectmanager EU-Project Aware & fair
